

Championship Walleye Tournament

Saturday, July 24th, 2027

(Hosted at Luke's Tap)

Check in time: 5:00am

Start Metro Boat Launch

102 Bay Beach Rd Green Bay WI 54302

Tournament starts at 6:15am

End You must check in at Metro Boat Launch,

whether you catch any fish or not. Must be off plane out from boat launch in front of mento at or Before 3:00pm! If you're not in on your specific time that was given to you, you will be disqualified from the tournament, but you are still eligible for door prizes and much more!

Tournament ends at 3:00pm

Mandatory meeting night 6pm Friday (Both captains from each team must attend)

Any questions please don't call the bar call **Mike Goebel - 920-216-4003**

Fishermen Payout: 100% payback / 1st place to 18th place The championship is 100% donated by all sponsors listed below!

Each boat will be given a ribbon at the meeting to tie to the front of your boat!

Each boat will receive a boat number at Friday night's meeting! It will be single file order out to lake 1 - 18 The boat number given to you will be the place you had taken in the first Isaac's event!

All live wells and compartments must be open and ready for inspection which will be held at the boat dock. No leaving the boat after being checked in and once you're boat in the water!

All fishermen must wear their life jackets in this tournament event! (Only need to wear life jackets while under power at 10 mph or faster!)

Absolutely No alcohol during the tournament hours!

All other WDNR rules apply in this event! If you are caught doing something wrong by the DNR during tournament hours you will be disqualified from this event! (Example: If you are in a no wake zone and you get pulled over for going too fast and your team gets a fine you will be disqualified!)

Any fish under 15" you lose that fish and your largest fish. We will make sure we move and alternate how the fish is laying on the measuring board to make sure we hit the 15" line best as possible. If we can't hit the 15" line we will offer to one of the fishermen to get out of your boat to show us if you can hit the 15" line.

It is the fisherman's responsibility to tell the scale master to weigh a big fish, not the scale master's responsibility to ask the fisherman!

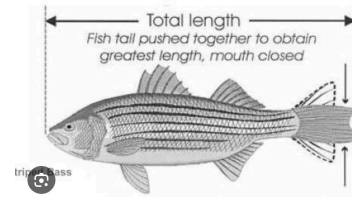

Walleye Only. (NO SAUGERS) if a team is caught with a sauger your team will be disqualified!

Slot Limit! Total Limit (4) - 1 over 25" and 3 under 25" or you can bring in all 4 under 25" Size limit still is 15"!

How to measure fish for the slot limit.

Walleye mouth must be closed! Walleye tail must be pinched!

Winners will be determined by the greatest total weight of Walleye.
(In case of a tie, the team that weighed in the earliest wins.)

Limit of 4 fish per boat!

No lead weights, lead jigs, crank baits, snap weights, pliers or anything in the stomach or mouth at all. If your boat is caught doing this you will be disqualified and removed from all events and will not be allowed to fish The Ultimate Angler Showdown ever again!

Example: The only thing allowed in a walleye mouth is a single or treble hook because you cut the line to keep the fish alive. You're not allowed to cut the line and leave any type of jig in the walleye's mouth. If the walleye swallows the jig you must remove the jig from its mouth, no exceptions.

Any snap weights caught on fish or in the bottom of baskets once the basket is in our hands you will be disqualified and removed from all events and will not be allowed to fish The Ultimate Angler Showdown ever again!

We encourage Catch and Release

Live weight will not apply in this tournament (There's no penalty for dead fish)!

Also please put your boat number in your basket with the fish.

If you don't have fish, you must return the boat number at the weigh-in station or to the check-in person. This ensures all boats are safe and accounted for. If boat numbers are not returned at the lake the \$10 will be deducted from the payout for each missing boat number.

Boats must fish in Green Bay, Only Wisconsin waters, NO FISHING IN RIVERS, Channels OR CREEKS!

We will not allow any teams to switch out both captains for another new team to fish for them for any Isaac's walleye tournament event at any point!

You must fish with the partner you placed with in the first Isaacs tournament for the championship.

In case of an emergency that one of the captains can't fish, you will only be able to replace that captain by choosing one captain from the team that placed 7th and if one of two captains can't fish with you, then we will move on to 8th place or until we can find a captain for you! It's up to the 7th place team to choose which captain will fish in the championship! No matter what if there has to be a partner change because of an emergency the new captain has to fish in Issac's tournament and has to go in order from 7th place and up!

Emergency Example: If a partner happens to get into an accident on the way to the tournament or the week of the tournament and fishermen can't physically fish or a death in the family that only pertains to a Mom, Dad, Brother, Sister, Grandma & Grandpa will be considered an emergency!

If both Captains can't fish the championship they will not get any awards or a place in the top 18! We will take 7th place and up until we get that team!

The Top 18 teams will all start with zero weight and will not add on to the first tournament weight!

In case of bad weather, the tournament will be held on the following day unless told otherwise!

Emergency:

Your fish must stay in your own boat, you may be towed in, but must be in by check-in time!

If there is an emergency, call the director immediately!

Mike Goebel: 920-216-4003

The championship is structured completely differently and could have unique changes up to meeting night!
